Software Development Intern Sears Holdings India

04/2021 - 06/2022 Pune
Mainly in Retail Business, E-Commerce and also provides Home Services in the USA

Achievements/Tasks

- Developed microservices using Java Spring Boot, Restful webservices with good quality of code.
- Developed multiple frontend screen using Angular, to call backend Restful API from frontend.
- Used agile methodology and attended the daily scrum meeting to update working status etc.

EDUCATION

B.Tech Computer Science Lovely Professional University

07/2017 - 07/2021 7.65 CGPA

Courses

- C, C++, Java, Python
- Data Structure and Algorithm, DBMS
- Operating System, Computer Networks
- HTML, CSS, JS

Higher Secondary Certificate Maa Durga Ji Sr. Sec. Vidyalyaya

2017 78%

Courses

- Physics
- Chemistry
- Maths

SKILLS

Java Spring Boot Spring Batch Angular AWS

CI/CD Tools Rest Apl / Micro Services SQL/NoSQL

Git Data Structures HTML / CSS / JavaScript Linux

Jenkins EKS / ECS Mockito Docker / Kubernetes

PERSONAL PROJECTS

Exam Portal Management System (05/2024 - Present)

- Currently engaged in a project focusing on CRUD operations, leveraging Angular for the frontend and Java with Spring Boot for the backend.

Order Management System (10/2022 - 08/2023)

- Team: 6 member.
- This component serves as the core of our application, encompassing all functionalities related to orders, including rescheduling, booking, cancellation, capacity management, and more. It operates in real-time and is developed using technologies such as Java, Spring Boot, MySQL, and Rest APIs.
- API Integration (REST/SOAP).
- Error Handling and troubleshooting.
- Collaboration with Cross-functional Teams.

E-commerce Application (10/2021 - 12/2021)

- This frontend project utilizes Angular concepts to implement features such as user authentication (sign-in/sign-up), creation, deletion, and more.

Music Player Application (05/2021 - 06/2021)

- This project extensively utilizes Object-Oriented Programming (OOP) principles to manage various scenarios, including maintaining a list of songs and adding new songs.

ACHIEVEMENTS

Getting Started with AWS by SkillUp (01/2022 - 04/2022)

- Covered all AWS concept in details like All services that AWS provides (AWS EC2, Amazon Elastic Beanstalk, AWS Lambda, Cloud formation etc.)

C++ Online Course by Coding Blocks (03/2020 - 01/2021)

Covered all concepts of data structure and algorithm using c++ concept.
